CATALOGUE

Brass Bonanza

Renowned equally for their versatility as for the volume with which they can dominate the largest symphony orchestras, brass instruments are able to both pack a punch and soothe the senses. From battlefields to bluesy night-clubs, bells lifted high or muted into new personalities, brass bands and chamber groups have always found their niche in society and fans in performance.

From novelty items to serious concertos, solo sonatas and scintillating septets, this segment catalogue has a surprise at every turn. We hope you will enjoy all the fun, fanfare and frisson it has to offer.

About the cover – Septura

Septura's members are the leading players of the new generation of British brass musicians, holding principal positions in the London Symphony, Philharmonia, Royal Philharmonic, City of Birmingham Symphony, Basel Symphony and Aurora Orchestras. By creating a canon of transcriptions, arrangements and new commissions for this brand new classical configuration, Septura aims to re-cast the brass ensemble as a serious artistic medium. The group is recording a series of albums for Naxos, each focused on a particular period, genre and set of composers, creating a 'counter-factual history' of brass chamber music.
